

# Drosophila Seminal Proteome

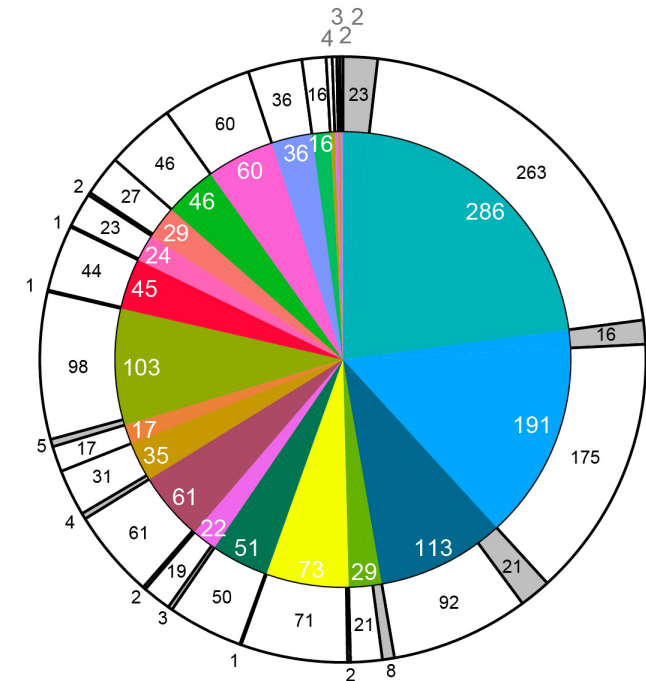

Hits at least one human seminal protein?

## Protein Class

- metabolite interconversion enzyme (PC00262)
- protein modifying enzyme (PC00260)
- protein-binding activity modulator (PC00095)
- defense/immunity protein (PC00090)
- membrane traffic protein (PC00150)
- intercellular signal molecule (PC00207)
- transfer/carrier protein (PC00219)
- transporter (PC00227)
- chaperone (PC00072)
- cell adhesion molecule (PC00069)
- cytoskeletal protein (PC00085)
- nucleic acid binding protein (PC00171)
- transmembrane signal receptor (PC00197)
- calcium-binding protein (PC00060)
- extracellular matrix protein (PC00102)
- translational protein (PC00263)
- scaffold/adaptor protein (PC00226)
- gene-specific transcriptional regulator (PC00264)
- chromatin/chromatin-binding, or -regulatory protein (PC00077)
- structural protein (PC00211)
- cell junction protein (PC00070)
- storage protein (PC00210)

# Human Seminal Proteome

Hits at least one *Dmel* seminal protein?
